

In 2003, mLINQS released the first and only comprehensive, totally compliant, and fully functional system designed expressly for government federal civilian agencies and the Department of Defense to manage employee relocation expenses. That system is the award winning moveLINQ. Since then, moveLINQ has been used to support relocation for the employees of over 35 federal agencies, including 11 of the 15 federal executive departments.

moveLINQ stands alone as the solution that government agencies can depend upon to remove the most frustrating and recurring financial management and compliance problems associated with relocation for all civilian and uniformed personnel. Options include a hosting service and an advanced reporting portal.

Totals By Allowance				
Allowance	Authorization	Voucher	Difference	Unbudgeted?
HMT	5,305.33	18,612.18	13,306.85	Yes
