mLINQS RECEIVES NATIONAL AWARD
FOR RELOCATION PROGRAM

FAIRFAX, VA – (February 13, 2006) – mLINQS, LLC today announced that the Society of Government Travel Professionals (SGTP) has presented the company with a Certificate of Achievement for its electronic relocation program, "End to End Automation of the $6 Billion Government Relocation Market". The award was presented at the SGTP Annual Conference in Alexandria, Virginia on February 10, as part of the association's 2005 Professional Development Awards.

This program uses the moveLINQ relocation system to simplify the PCS (permanent change of station) process and expedited reimbursement for federal transferees. It is recognized as the first and only web-based PCS product, the only product built on the Federal Enterprise Architecture (FEA) standard platform, and the one application that provides computations compliant with Chapter 302 of the Federal Travel Regulations (FTR), as well as international regulations. moveLINQ, first released in 2004, was developed in-house by mLINQS to meet the complex relocation needs of federal agencies.

"Our relocation program combines a unique product with support services that saves taxpayer's dollars and improves the quality of life for transferees by simplifying the relocation process," said mLINQS President, Greg McIntyre. "This SGTP national award shows what a small group of entrepreneurs can do when they're dedicated to a common goal." At the 2005 SGTP conference, the Bureau of Public Debt, a mLINQS customer, was honored with one of the organization's Professional Development Awards for its PCS program using moveLINQ as its core technology.

mLINQS was founded in 2003 to provide consulting services in support of the E-Gov Travel Service. It has since achieved steady growth enabling the company to expand into broad-based management consulting and software development offered exclusively to federal agencies.

The Society of Government Travel Professionals, headquartered in Bethesda, Maryland, is the national, non-profit forum of all government travel market components, whose objectives are to educate its members and to facilitate innovation and best practices in government travel.

Further information about all mLINQS services and products is available by visiting the website at www.mlinqs.net, or by calling 703-322-9700, ext. 101.
